Top Stories

Company Update | Indika Energy (INDY IJ/**BUY**/Rp1,490/Target: Rp2,350) Page 2 →

- INDY's 9M26 net profit recovered to US$20.2m from US$0.5m, driven by a stronger Kideco coal performance and higher margins, despite elevated finance costs and forex losses. Kideco sees limited risk from Chinese buyers' 2027 contract pushback, with 80% of sales under long-term agreements. The construction of Awak Mas was 76.4% completed in October, keeping first gold on track for 1H27. We forecast 2027 earnings of US$73m. Maintain BUY with an SOTP-based target price of Rp2,350.

Technical Analysis

Bank Central Asia | BBCA IJ Page 5 →

- Trading Buy Range: We have a technical Buy at Rp5,875, and take profit at Rp6,325.

Alamtri Resources Indonesia | ADRO IJ Page 5 →

- Trading Buy Range: We have a technical Buy at Rp2,400, and take profit at Rp2,520.

Disclaimer: In Traders' Corner, technical analysis is carried out purely based on charting patterns, price movements and trends, and is thus independent of the fundamental research views of our analysts. As a result, and from time to time, we may make a technical recommendation that is opposite to our fundamental BUY/HOLD/SELL rating.

Indika Energy (INDY IJ)

Awak Mas On Track to Start In 1Q27

Highlights

- **Awak Mas remains on track for first gold in 1H27, supporting a 2027 earnings recovery.** Construction progress had reached 76.4% in Oct 26, with commissioning expected in 1Q27.
- **Non-coal businesses are gaining traction, supporting the 50% revenue target by 2028.** 9M26 non-coal revenue grew 51.3% yoy, contributing 23.1% of total revenue.
- Maintain BUY, with a higher SOTP-based target price of Rp2,350.

Analysis

- **9M26 earnings recovered strongly, driven by Kideco's improved coal performance.** Net profit reached US$20.2m, up from just US$0.5m in 9M25, while revenue rose 27.7% yoy to US$1.84b as coal ASP jumped from US$56.30/tonne (+14% yoy ;+2.92% qoq). Sales volume reached 22.6mt, up 1.8% yoy and 0% qoq. Better gross margins and disciplined SG&A growth lifted operating profit by 92.6% yoy to US$155.9m. However, net profit was partly offset by US$51.6m in finance costs, US$47.7m in income tax and US$9.8m in forex losses, of which around US$7m was unrealised.
- **Kideco sees limited near-term risk from Chinese buyers' pushback on 2027 contracts.** 29% of Kideco's coal sales in 9M26 were to China. Around 80% of Kideco's coal is sold under 3-5-year long-term contracts, with Indika Energy (INDY) stating that buyer relationships remain intact. Regarding the government's statement that at least 70% of mining proceeds should go to the state, INDY is awaiting further details on the mechanism and regulations, while emphasising the need to maintain sustainable mining operations.
- **Awak Mas is approaching 80% completion; 1H27 first gold target remains intact.** Construction progress reached 76.4% in October and was nearing 80% as of 19 Nov 26. INDY expects major structures to be completed by end-26, followed by commissioning in 1Q27 and first gold in 1H27. The project targets annual production capacity of around 100,000 oz, with total resources of 3.29moz and reserves of 1.93moz. Total project cost stands at US$568m, of which US$437m had been spent as of Oct 26. INDY said the ongoing land dispute involves overlapping claims rather than unpaid compensation, with mediation continuing, but does not expect it to affect the construction timeline.
- **We expect 2027 earnings to come in at US$73m.** Once Awak Mas commences operations, we expect 2027 earnings to come in at US$73m (+102.6% yoy). We are expecting the Awak Mas mine to produce 60,000 oz of gold in 2027.

Company Description

Gold, copper, and nickel producer in Indonesia. The company is the first greenfield mining company listed on the JCI in 2016 and started production in 2017.

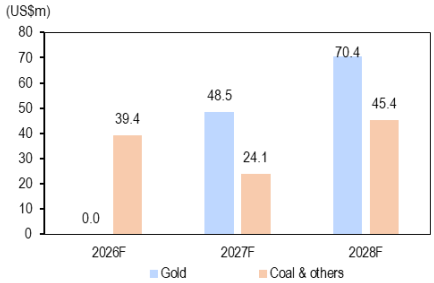

- **The proposed 70% government take remains an overhang.** The proposal raises concerns over the allocation of financial burdens and operating risks between the government and mining companies. A revenue-based calculation could undermine the viability of mining operations, given that companies would continue to bear the bulk of operating and capital expenditure. Based on our assumption of a 70% state take on pre-royalty EBIT, INDY's 2027 earnings could decline by 6.8%, primarily from its gold operations, while the impact on coal should be limited, with the government's share of coal business value already reaching around 87% as of end-Sep 26. This would lift INDY's 2027F PE to 5.9x from 5.5x at current share prices. Pending further clarity on the calculation methodology, we maintain our view that the proposal remains a regulatory overhang.
- **Sensitivity analysis**. Every 5% increase or decrease in gold prices would impact 2027 net profit by approximately 7.5%, while every 5% change in gold production would impact 2027 net profit by around 4.7%.
- **Non-coal businesses are gaining traction, supporting Indika's target of 50% non-coal revenue by 2028**. 9M26 non-coal revenue grew 51.3% yoy, contributing 23.1% of total revenue. Growth was led by Tripatra (+64.4% yoy) on the Geng North project, Interport (+47.4%) on stronger fuel trading, and Indika Indonesia Resources (+94.7%) following a recovery in coal trading. Management remains confident in achieving its 2028 target, citing improving contributions from engineering, logistics, EVs and renewables.

Valuation/Recommendation

INDY'S SOTP

Description	Method	Values (mn USD)
Awak Mas	DCF	670
Kideco	EV/Reserve	852
Enterprise Value		1,523
Net Debt		843
Equity Value		680
O/S		5,207
NAV/share (Rp)		**2,350**
Adj -up (Rp)		**2,350**

Source: INDY, UOB Kay Hian

- **Maintain BUY with a lower SOTP-based target price of Rp2,350 from Rp3,050,** reflecting: a) lower volume assumption of gold sales, and b) a higher WACC of 10.37% to take into account the higher yield and risk premium environment.

Earnings Revision/Risk

Earnings Revision

	Old		New		Changes (%)	
	2026F	2027F	2026F	2027F	2026F	2027F
Gold Production (oz)	0	80,000	0	60,000	-	(25)
Net turnover	2,195	2,478	2,195	2,398	-	(3)
EBITDA	189	313	189	272	-	(13)
Operating profit	160	271	160	230	-	(15)
Net profit	39	96	39	73	-	(24)

Source: INDY, UOB Kay Hian

- Risks include: a) Project delays and operational disruptions from natural disasters, b) regulatory uncertainty, and c) commodity price volatility.
- We downgrade our earnings forecast for 2027 by 24%, mainly due to lower gold production volume assumption.

Share Price Catalyst

- a) Awak Mas commencement, and b) stronger coal and gold pricing.

Bank Central Asia
BBCA IJ

Technical BUY with 7% potential return

Resistance:	Rp6,200, Rp6,325
Support:	Rp5,750, Rp5,550
Stop-loss:	Rp5,525

Share price closed higher and formed a neutral candlestick. Price advanced with better momentum; hence, it could trigger more rallies and challenge the resistance at Rp6,200 and Rp6,325. The RSI is sloping upwards and approaching its overbought zone, while the MACD remains on a bullish crossover. Buy at Rp5,875 and take profit at Rp6,325.

Approximate timeframe: 2-4 weeks.

Our institutional research has a fundamental BUY and target price of Rp6,600.

Alamtri Resources Indonesia
ADRO IJ

Technical BUY with 5% potential return

Resistance:	Rp24,350, Rp25,000
Support:	Rp23,025, Rp22,025
Stop-loss:	Rp23,000

Share price closed higher and formed a bullish candlestick. Price advanced with better momentum and higher trading volume; hence, we see potential for more rallies and challenge the resistance at Rp2,520 and Rp2,650. The RSI is sloping upwards and is back above its midline, while the Stochastic has just issued a bullish signal. Buy at Rp2,400 and take profit at Rp2,520.

Approximate timeframe: 2-4 weeks.

Our institutional research has a fundamental BUY and target price of Rp3,240.
